

MOHAMED MAGDY IBRAHIM

Senior OutSystems Developer

(+966) 501769573 | mohamed.magdy.imosa@gmail.com | Al Jubail, Saudi Arabia | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Senior OutSystems Developer with experience delivering scalable enterprise applications across banking, insurance, healthcare, and e-commerce domains. Specialized in Reactive Web development, solution architecture, system integrations, and performance optimization, with strong expertise in reusable components, REST/SOAP services, database design, and secure application delivery. Combines OutSystems expertise with a full-stack background in JavaScript, React, and Node.js to build end-to-end business solutions and lead technical implementation aligned with enterprise best practices.

SKILLS

- OutSystems & Low-Code:** OutSystems Reactive Web, Service Studio, Architecture Canvas, ODC, reusable components, REST/SOAP integrations, performance optimization, enterprise architecture, OutSystems best practices, Forge components
- Backend Technologies:** Node.js, Express.js, RESTful APIs
- Frontend Technologies:** React.js, Redux, Next.js, HTML5, CSS3, Bootstrap
- Databases:** MongoDB, Oracle Database, MySQL
- Programming Languages:** JavaScript, TypeScript, Java
- Tools & Platforms:** Git, GitHub, Firebase, Docker, Nginx
- Methodologies:** OOP, SOLID principles, Design patterns, Agile/Scrum, CI/CD
- Languages:** Arabic (Native), English (Professional Proficiency)

EXPERIENCE

- Senior OutSystems Developer** | **Adree** | *Cairo, Egypt* April 2025 – Present
Saudi Export-Import Bank – Procurement Tracking & Committee Automation (OutSystems Reactive Web)
- Integrated OutSystems apps with SAP via API layer for real-time purchase request visibility.
 - Designed solution architecture with modular separation: core services, UI, integration, and workflow.
 - Implemented data models, multi-entity relationships, Reactive Web screens, reusable UI/service blocks, and role-based access control (RBAC).
 - Applied performance optimization, exception handling, and OutSystems best practices for scalable, maintainable applications.
- OutSystems Developer** | **Ministry of Health Oman** | *Remotely, Cairo, Egypt* July 2024 – March 2025
- Developed and maintained OutSystems Reactive Web and Mobile applications for public health initiatives.
 - Implemented OutSystems architecture and integrated SQL databases to support digital transformation.
- OutSystems Developer** | **CGC-Daman** | *Cairo, Egypt* August 2023 – July 2024
- Developed an OutSystems application to streamline guarantee submission processes.
 - Designed scalable solutions using OutSystems architecture and SQL databases.
 - Improved operational efficiency, reducing processing time and increasing profitability by 15%.
- Full Stack Developer** | **Orient Takaful** | *Cairo, Egypt* April 2022 – August 2023
- Built enterprise solutions using Node.js, React, Redux, MongoDB, Oracle DB, and Firebase.
 - Automated data transfers via API integration, reducing manual effort by 40%.
 - Developed APIs for insurance product integrations, improving data accuracy and reliability.
- Full Stack Developer** | **Spec Tech** | *Cairo, Egypt* November 2021 – April 2022
- Designed and launched an e-commerce platform for Sata Group using Node.js, React, Redux, and MongoDB.
 - Deployed with Nginx on Ubuntu, optimizing vendor management and sales operations.
- Full Stack Developer** | **Canzoni Consultant** | *Cairo, Egypt* September 2020 – July 2021
- Enhanced a student-focused web application using Ruby on Rails, HTML, CSS, and JavaScript.
 - Improved usability and enrollment processes for over 1,500 international students.

TEACHING & MENTORSHIP

- Full Stack Instructor (Part-Time)** | **Various Institutions (AMIT – DEPI)** | *Cairo, Egypt* July 2023 – September 2024
- Taught frontend and backend development including HTML/CSS, JavaScript, Angular, Node.js, MongoDB, Oracle DB, and Express.
 - Mentored students on industry best practices and real-world project development.

EDUCATION

- Bachelor's Degree in Computer and Artificial Intelligence** September 2016 – August 2020
Helwan University | Cairo, Egypt
Major: Information Systems
- Scholarship in Full Stack Development (MEARN Stack)** August 2021 – November 2021
Information Technology Institute (ITI) | Egypt
Intensive program focused on full-stack development with MongoDB, Express, Angular/React, Node.js.

PROJECTS

- Cryptocurrency Application** (Aug 2022 – Nov 2022): Designed and developed a cryptocurrency application using Node.js, React, Redux, and MongoDB, implementing real-time market data features and strengthening practical understanding of blockchain-based platforms.
- Adva Real Estate Web Application** (Mar 2022): Built a real estate platform for Adva Company using React.js, React-Bootstrap, and CSS, enabling improved property management.
- Safe Social Network for Children** (Graduation Project): Developed a secure social networking app using Flutter, Provider state management, REST APIs, and Firebase.
- Food Shop Desktop System:** Created a desktop food shop management system using Java and MySQL (NetBeans IDE).

CERTIFICATIONS

- OutSystems Associate Reactive Developer (O11) — [View Certificate](#)
- OutSystems Developer Cloud (ODC) — [View Certificate](#)
- Udacity: Front-End Web Development with JavaScript & Node.js (February 2021, Ministry of Communication and IT) — [View Certificate](#)
- MongoDB M001: MongoDB Basics Certification (October 2021)
- Mahara-Tech (ITI Platform): Certificate of Completion for JavaScript — [View Certificate](#)
